Python

ABOUT ME

From a young age I started to be interested in programming. At first it was Python, and later JS and web programming. Every year I ranked first in olympiads from programming and information technology at school, city and regional stages. I participated in team competitions, tournaments as a team captain with victorious results. In addition, the repeated medalist of the All -Ukrainian Olympiads in Mathematics and Physics. I am currently interested in the web development and the development of applications.

EDUCATION

In 2016-2019 I studied at computer courses at CNTTUM. I studied JS, HTML, CSS and quickly improved my skills by gaining practical knowledge.

OTHER

Purposeful, sociable, punctual, with critical thinking, I am serious about the tasks set and I quickly learn.

I perfect speak Ukrainian and Russian, and I speak the above average level in Polish and English languages.
